JACKETS | PANTS | SUITS | GLOVES | ARMOR | ACCESSORIES 2016

TRANS.URBAN JACKET

The Pilot TRANS.URBAN jacket was built to be your everyday workhorse motorcycle jacket. It is constructed of 600D NPF, 1680D Ballistic NPF and FlexDura outer shell with a REISSA waterproof/breathable inner shell. Combined with a removable thermo-liner for warmth, the TRANS.URBAN jacket provides top of the line abrasion resistance as well as comfort.

Soft Touch Neoprene Collar

Zippered shoulder
air intake vents

CE approved armor

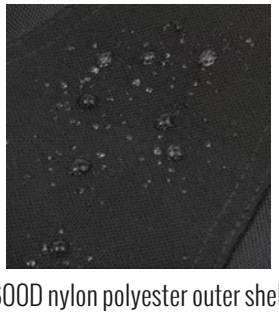
"... the best combination of value, features, comfort and quality of any jacket we have reviewed in 2013"

- WebBikeWorld.com



600D nylon polyester outer shell
& REISSA water proof liner

COMFORT ZONE

Ideally suited to use from early Fall to late Spring. Removable warmth liner and venting offer great versitility and make the TRANS.URBAN a true 3 season jacket.

32° —— Temp Range —— 80°

FIT

TOUR

TOUR fit is a slightly looser fit that allows for layering and a more comfortable upright riding position, without being baggy.

KEY FEATURES

- REISSA Water Proof/Breathable Liner
- Zip-Out Thermolite Warmth Liner
- Waterproof Air Intake and Exhaust Vents
- 3M Scotchlite Reflective Material
- CE Approved Armor
- CORE Chest Protector Compatible Page 16
- 2 Two Year Limited Warranty

TRANS.URBAN AIR JACKET

There are times when even the most well vented solid textile jacket simply can't flow enough air to keep the rider comfortable. We created the TRANS.URBAN Air jacket as a response to riders who loved our solid TRANS.URBAN, but lived in climates where the summer necessitated the use of full mesh riding gear.

The TRANS.URBAN Air has all of the same features as the original, except that its outer shell is made of heavy duty Pilotex micro-mesh. The result is an extraordinary versatile piece of gear. If we had to pick only one jacket to own, this would be it.

Air flowing Pilotex mesh body

CE approved armor

Attachment points and pockets highlighted for visibility

Dual liner system. Removable warmth and waterproof liners

COMFORT ZONE

Easily our most versatile jacket, the TRANS.URBAN AIR features 2 removable liners, one for warmth, and one for water proofing. This allows the jacket to be used in a very wide range of ridding conditions.

50° —— Temp Range —— 100°

FIT

TOUR

TOUR fit is a slightly looser fit that allows for layering and a more comfortable upright riding position, without being baggy.

DIRECT AIR JACKET V2

The outer shell of the Direct Air jacket is made of ultra strong Pilotex 210D Micro Mesh. Unlike older or cheaper materials, Pilotex Mesh has a finer, multi-layer perforation that flows just as much air, but due to a tighter weave offers increased abrasion resistance. For further protection, 600D NPF overlay panels cover the shoulder and elbows with triple and double stitched seams throughout.

Soft touch neoprene collar

CE approved armor

Air flowing Pilotex micro mesh

Attachment points and pockets highlighted for visibility

"... Pilot does it yet again and the Direct Air jacket is another bargain at a list price of $150.00"

- WebBikeWorld.com

COMFORT ZONE

While primarily designed as a warm weather jacket, the zip-out wind and rain liner extends the comfort range from early Spring to late Fall making this a highly versatile piece.

50° —— Temp Range —— 100°

FIT

STREET

STREET fit is a more contoured fit, ideal for spirited street riding in a more aggressive position, but still comfortable upright.

KEY FEATURES

- Zip-Out Water Proof Liner
- Air Flowing Pilotex Micro Mesh
- 3M Scotchlite Reflective Material
- CE Approved Armor
- CORE Chest Protector Compatible Page 17
- 2 Two Year Limited Warranty

VISTO JACKET

The Visto jacket was designed in response to those who wanted more HI-VIS coloring on our Direct Air jacket. It features the same Pilotex mesh construction as the Direct Air, but with more features, twice as much 3M Scotchlite and top to bottom HI-VIS coloring for maximum visibility both day and night.

Soft touch neoprene collar

SLATE AIR JACKET

The Slate Air jacket was designed with the simple notion that sometimes less is more. Sometimes having a feature list a mile long and a price tag to match comes at the expense of simplicity and affordability. We designed the Slate jacket to remove the barriers to entry, believing that everyone should have access to quality, stylish riding gear.

FIT

STREET

STREET fit is a more contoured fit, ideal for spirited street riding in a more aggressive position, but still comfortable upright.

VANGUARD AIR

VANGUARD AIR ID

VANGUARD & VANGUARD ID VEST

Not everyone wants to be full blown hi-vis all the time. The Vanguard Air vest gives you the power to determine when it's necessary to be seen, and when you might want to fly a bit under the radar.

Unlike other hi-visibility vests, the Vanguard features a fitted profile, eliminating the need for cumbersome adjustment mechanisms and staying tight to the body rather than flapping in the wind.

For military personnel the Vanguard ID Air vest has a removable velcro attached ID holder.

FIT

STREET

STREET fit is a more contoured fit, ideal for spirited street riding in a more aggressive position, but still comfortable upright.

OMNI & OMNI AIR OVER PANTS

We offer two pairs of over pants.

The Omni, which is constructed of Pilotex 600D NPF with FlexDura stretch material in crotch and back of knees with a sewn in water proof & breathable REISSA liner.

The Omni Air which shares the same features as the Omni, but made with Pilotex 210D Micro Mesh for air flow and has a zip-out wind/rain liner.

SHARED FEATURES

All Pilot over pants are equiped with:

Contoured fit, not baggy likeother over pants

Dual zipper allows access to pants pockets while wearing

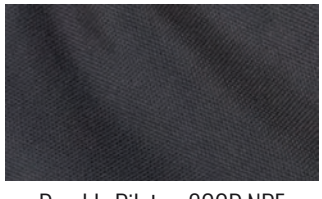
Full length zipper makes getting pants on/off easy

Padded, height adjustable armor pockets on knees, with CE Approved Armor

Rear zipper attachment allows connection to all Pilot jackets. Zipper attachment for sewing into other brands of jackets also included

OMNI OVER PANTS

Zippered pockets and air vents



Durable Pilotex 600D NPF outer shell

COMFORT ZONE

The Omni Over Pant was designed to be as durable and waterproof as possible. It's REISSA liner is one seam sealed piece to prevent water permiation while breathing. Its solid 600D exteriror and zippered air vents allow for regulating air flow.

40° —— Temp Range —— 80°

KEY FEATURES

- REISSA Water Proof Liner
- Pilotex 600D NPF Outer Shell
- Zippered Air Intake Vents
- 3M Scotchlite Reflective Material
- CE Approved Armor
- CORE Hip Protector Compatible Page 16
- Two Year Limited Warranty

OMNI OVER PANTS | $150

		S	M	L	XL	2XL	3XL	4XL
BLACK	3000101 -	01	02	03	04	05	06	07

COMFORT ZONE

Just like our Direct Air Jacket, the Omni Air Over Pants are designed for a wide range of conditions. With the rain liner in, they'll keep you dry in a sudden downpour. With it removed, they flow enough air to be used on even the hottest riding days.

50° —— Temp Range —— 100°

KEY FEATURES

- Zip-Out Water Proof Liner
- Air Flowing Pilotex Micro Mesh
- 3M Scotchlite Reflective Material
- CE Approved Armor
- CORE Hip Protector Compatible Page 16
- Two Year Limited Warranty
